

MISSION

The Instituto Superior Universitario Vida Nueva (ISUVN) trains University Technologists, Specialists, and Technological Master's graduates with leadership qualities —capable, competent, and entrepreneurial individuals with a vocation for service, a deep commitment to ethical and spiritual principles, and dedicated to social, productive, and sustainable development

VISION

The Instituto Superior Universitario Vida Nueva (ISUVN) seeks to be a prestigious center of learning, committed to offering relevant academic programs aimed at leading productive and social processes both nationally and internationally, through various modes of study. Its efforts are supported by institutional principles and values, with a focus on research, technological innovation, and contributing to the country's sustainable development
